

Natural Resources and Environmental Protection Cabinet
Kentucky Department for Environmental Protection
Division for Air Quality

PERMIT
THE WALKER COMPANY OF KENTUCKY, INCORPORATED
dba ATLAS CONCRETE
P.O. BOX 308
MOUNT STERLING, KENTUCKY 40353

RE: Ready Mix Concrete Plant located on Wilmot Road, Mount Sterling, Kentucky

Pursuant to your application which was determined to be complete by this office on July 10, 2000, the Natural Resources and Environmental Protection Cabinet issues this permit for the operation of the equipment specified herein in accordance with the plans, specifications, and other information submitted with your application. This permit has been issued under the provisions of KRS Chapter 224.033 and regulations promulgated pursuant thereto and is subject to all conditions and operating limitations contained herein. Issuance of this permit does not relieve the permittee from the responsibility of obtaining any other permits, licenses, or approvals required by this Cabinet and/or other state, federal, and local agencies.

<u>POINT OF EMISSION</u>	<u>AFFECTED FACILITY</u>	<u>CONDITIONS</u>
01 (F)	Cement Silo	40 tons/hour maximum operating rate. Opacity from baghouse exhaust shall not equal or exceed 20%.
02 (H)	Flyash Silo	40 tons/hour maximum operating rate. Opacity from baghouse exhaust shall not equal or exceed 20%.
03 (-)	Cement Weigh Hopper	
(-)	Truck Loadout	150 cu. Yd/hour maximum operating rate.

No deviation from the plans and specifications submitted with your application or the conditions specified herein is permitted, unless authorized in writing by the Division for Air Quality. Violations of the terms and conditions contained herein shall be grounds for the Department to seek revocation of this permit. All rights of inspection by the representatives of the Division for Air Quality are reserved. Responsibility for satisfactory conformance with all Air Quality Regulations must be borne by the permittee.

PERMIT - Continued

<u>POINT OF EMISSION</u>	<u>AFFECTED FACILITY</u>	<u>CONDITIONS</u>
03 (A,B,C,D,E,G)	Aggregate Handling & Stockpiles	
04 (-)	Haul Road and Yard Area	

GENERAL CONDITIONS:

1. In no way does this permit relieve the company from the responsibility of controlling emissions at all times in accordance with Regulation 401 KAR 63:010, Fugitive emissions.
2. This permit shall become null and void after five years following the date of issue. Application for renewal shall be made at least six months prior to the expiration date.
3. The company shall maintain and make available for inspection by this Division all production records necessary to assure that the allowable hourly production rate will not be exceeded.
4. In no way does this permit relieve the permittee from compliance with all applicable emission and air quality standards.
5. The haul road shall be sprayed with water on a regular basis so as to comply with the requirements specified in Regulation 401 KAR 63:010, Fugitive emissions.
6. The opacity of emissions from all affected facilities as defined in 401 KAR 59:010, New process operations, shall not equal or exceed 20%.
7. All control devices shall be properly maintained, kept in good operating condition, and used in conjunction with their associated processes at all times.
8. All previous permits issued to this source at this location are hereby null and void.
